

2ND INTERNATIONAL
CONGRESS
**FIRE IN THE
EARTH SYSTEM**

4-8 July 2023, Granada - Spain.

The first FEs congress was held in 2020 in the city of València. The mission of FEs is to share information, ideas and aims to use fire as a tool to achieve sustainability.

The main objective of fEs23

Bringing scientists, practitioners citizens, policymakers together to share knowledge and experiences on fire dynamics, fire risk management, the effects of fire on vegetation, fauna, soil and water, and the socio-economic, historical perception, geographic, political, and land management approaches.
